Dear Joe,

I saw the card that you included with the packages from the Broward County Navy League. I wanted to write and say thank you for your help putting those packages together.

I had my First Sergeant distribute the packages to Marines and Sailors throughout my company. There are over 150 of them spread over thousands of square miles of Afghanistan, so your support will be felt far and wide.

It always means so much to know that people back home are supporting us. The number of packages that were sent to our unit clearly shows that there is plenty of that support in south Florida.

Thank you again for taking the time to send these items to us.
